User Engagement

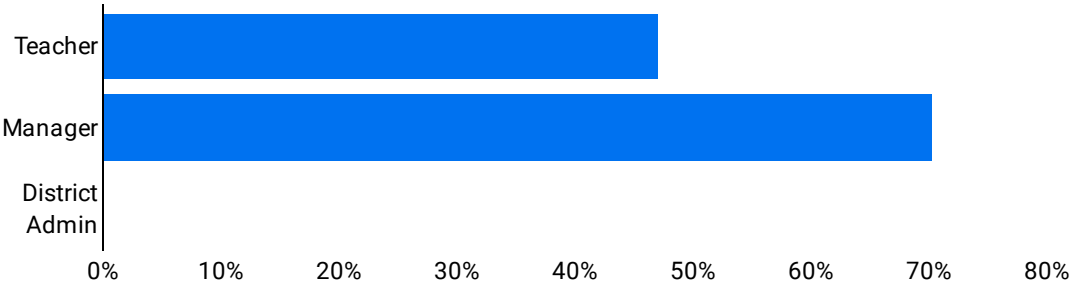

Engagement involves adding or viewing data in the platform. Adding data involves inputting data into the platform, including but not limited to actions such as: creating plans, resolving to-dos, adding meetings or family communications, or engaging in insight surveys. Viewing data involves logging into the platform, but not inputting any saved data.

Fidelity of To-Dos

Plan fidelity is a reflection of how much of the planned interventions/progress monitoring are being successfully completed. An incomplete activity is one that is marked as incomplete due to teacher absence, student absence, or school closings. An overdue activity is one that was scheduled to be resolved in previous weeks, and is still left unresolved.

Progress Monitoring Assessment Quality

Progress monitoring assessment quality is a reflection of how many goals are being progress monitored using nationally normed assessments. It is recommended that a minimum of 10% of goals are progress monitored with nationally normed assessments. Any schools not meeting this recommendation are highlighted in red.

Tier 2/3 Students with Active Plans

Students that have been designated as needing tier 2 or 3 support are expected to have **active** interventions/accommodations in place to support them. An intervention is considered active if it is currently being administered, or expected to be administered in the future, and the plan has not yet ended. It is recommended that all tier 2 and 3 students have an active intervention plan.
